

Dunnage news is a great alternative package filler. This is because not only is dunnage news recyclable, but it does not take up nearly as much room as say packing peanuts would. Plus it can be wrapping around things, thus adding additional safety. Dunnage news is one's all around appropriate choice for packaging filler.

A shrink wrapped alternative is also produced, and offers customers the opportunity to provide their own inserts. Many times when a boxed version is too costly this is the most efficient route.

**** ALL STANDARD AND CUSTOM SIZES ARE AVAILABLE IN THIS PRODUCT LINE ****

A ten pound box of newsprint is perfect for those small storage facilities. Its generic look will fit for anyone and still leave a professional feel.
